

Custom Payloads for UAV systems

high range of versatility

Custom UAV systems

Versatility ensures that the system can be used for a range of different tasks

- Anti poaching
 - Energy industry
 - Agricultural and forestry
 - Homeland security
 - Over-the-hill reconnaissance
 - Nature and environmental protection
 - Event security
 - Security and police
 - Army operations
 - Fire department
 - Rescue services
- and many more...

custom manufacturing

- Magnesium & Aluminum Alloys
- High Grade Carbon Fiber
- Intelligent 3D print parts
- 3D CAD engineering
- ultra low weight construction
- Engineered and built in Germany

LONG RANGE UAV

MULTICOPTER

GROUND STATION

Custom surveillance UAVs

Custom copters and multicopters

Long-Range UAV Ground Stations

optimize and expand

- custom payloads for various Lightweight CAM Systems
- Smart Battery options for multiple missions
- Hot Swap payload
- stall landing stability up to 6G
- ultra long range flight endurance
- Body Foaming and inhouse assembly

construct and develop

- part molding and CAD constructions
- Drone frame assembly
- special engineering of aluminum Cooling Parts
- development of RF systems on demand
- Antenna Systems for ultra long range Transmitting
- PCB board manufacturing

flight control and monitoring

- Ground Station CAD development
- customized design on demand
- OEM Manufacturing
- various remote control system available
- Multiple CaseDesigns
- trollies, carrying cases, oversize transport cases
